

Lab After School

J Lab is designed for elementary children who have a lot of energy and many different interests. The 4:30-6:00 p.m. time on Wednesdays includes music for fun, and preparing music and speaking parts for their Christmas musical, "Away in a Manger", on Dec. 2nd, at 5 p.m., and activities to learn about Jesus.

We might have difficulty figuring out who some people are, but we can be very sure about Jesus. During the activity time we are learning the seven "I AM" statements of Jesus. Jesus was the best teacher and He used these statements so we can understand who He is, His love for us, and His power to save us. As we learn together, we use game, science, cooking, art and video activities.

It's not too late to join in! Contact Chris (musicdirector@fbcmiddletown.org), or see Beth Daly or Chris Baird at church any Sunday!

Be sure and check out the photos posted on the church's Facebook page (First Baptist Church Middletown OH) and see what the kids are doing each week at J Lab!
